## SCHOOL REPORT.

---

TO THE CITIZENS OF GREENWOOD:—

Another school year has gone and is now among the things of the past. In accordance with an established custom, your committee begs leave to submit the following report of the educational work for the year ending Feb. 27, 1896. We commenced the year with the full number (five) on the School Board, and with good success each one acted their part.

### BUILDING.

One of the many important duties devolving upon your committee was looking after the condition of the school buildings. The appropriation made for building and repairing has been very economically expended by the committee. With a hard struggle with subscription and money raised we succeeded in building two new schoolhouses, one in Dist. No. 4, Tubbs District so called, one in Dist. No. 11, Ransom Cole's District so called. The plan of them is complete and they are built in a workmanlike manner. That for general repairs has been placed where most needed, and we would recommend that an equal amount be raised for a similar purpose another year, as it could be used to advantage. We now have our school buildings quite well furnished and as comfortable as possible with means furnished.

## BOOKS.

Your Superintendent is well aware that more books have been purchased than it was thought by your former Superintendent would be required, but on finding a surplus of some kinds and a shortage of others, we thought best to make an exchange and try to supply each pupil old enough to use books with those most needed. We adopted the Stickney and Cyr Readers, the New Normal Readers, and Metcalf's English Grammar, and Metcalf and Bright's Language Lesson Part One. We exchanged enough of Swinton's Geographies for Frye's Complete and Frye's Primary for one school, on trial, and they proved to give very good satisfaction. Now the spelling books ought to be renewed and get more of them as there is not a sufficient number to supply each scholar with a book.

## SCHOOLS AND TEACHERS.

During the year there have been eight schools maintained. There was some talk of having a school on Howe Hill but the committee decided that it was not economy to support a school there for so few pupils, therefore those scholars were brought to the school at Locke's Mills Village, much to their advantage. Out of the 227 scholars we have in town, we support eight schools. The scholars that attended these schools have been under the instructors, as I thought in my judgment, proper to manage them and most excellent work has been done. If a teacher is orderly, uses good language at all times, is easy and graceful in manner and is always polite to pupils, as well as others, there is very little to fear in the general deportment of that school.

In the assignment of teachers, your committee tried to select the best and retain the same as long as good work was done, giving the preference to teachers of our own town, qualifications being equal.

I can see a marked improvement in our schools during the past year. I wish to thank the teachers who have kindly cooperated with me in bringing about this improvement, the scholars for their hearty good will and faithful work, the parents for their words of encouragement both to the teachers and myself, the members of the School Board for their much needed assistance and advice, and lastly the citizens for their confidence in my ability, manifested by electing me on the committee for the past year.

# FACTS FOR THE PUBLIC.

No chromes, silverware, furniture or books go forth from our store under the guise of presents when they are in reality paid for in extra profit on the goods bought.

## FOR INSTANCE

When you call at our store and give us Ten Dollars, we give you Ten Dollars' worth of goods. Some other stores will tell you they will give you a premium with the goods. They do give it to you, but their prices are advanced so that you pay for it.

## WE HAVE ALWAYS

Sold goods for as small profit as any store can and meet its obligations; in fact, lower than any store in Oxford County. This all shrewd buyers will bear witness to. If we were to give away premiums each year to the amount of \$500 it would mean just that amount more of expense, and we would have to do as all stores that give away premiums do,--tack on more profit, and when you bought clothing you would pay for the premium.

At all seasons of the year we have all the latest styles in
